## What is Wingly?

**Wingly** is Europe's leading flight sharing platform. We connect private pilots with passengers so they can share the cost and the passion of the flight. Founded in July 2015, we already have 20,000 registered users, 70,000 unique visitors per month; nearly 60,000 Facebook-fans, and successfully closed our first financing round.

## Who are we looking for?

- Superior skills in PHP & MySQL
- HTML/CSS and Javascript experience
- More than 2 years experience of web development experience
- Fluent in English. German and French are a plus
- Strong understanding of UX / UI is a plus

## Your Job:

- In charge of web development
- You will work directly with the CTO, Lars
- Development of the website through creativity and skills
